TUBE BOTTOM (SIDE)

BASE (TOP)

Stamped Steel base - most competitors use cast iron bases, which is a soft & brittle metal.

BASE (BOTTOM)

Welded glide tabs with hollow back - not possible with cast iron bases - drastically reduce the chances of having a bad tab for glides.

- Specially coated (DURAFINISH) to withstand outdoor conditions
- Constructed of black stamped steel for unparalleled strength & stability - will not fracture under heavier weights like cast iron bases
- Easy two-piece construction for quick assembly
- Includes non-marring adjustable levelers
- Spider attaches to tabletop with (8) 3/4" - #10 screws
- Recommended to use 1 size larger base for bar height applications
- Compatible with 3" or 4" standard height or bar height tubes
- NOT suitable for oceanside or poolside applications.

Inner steel tube and tension bolt located underneath the spider to stabilize umbrellas in outdoor conditions.
